An interesting selection of Spanish extracts for classroom use has been made by Prof. Elijah Clarence Hills of Colorado College in "Spanish Thes" (Henry Holt and Company). Possibly it may be held that literary quality is not essential in the pieces that beginners have to struggle with, still there is encouragement in finding that the Spanish that must be translated has been written by Echegaray, Trueba, Palacio Valdes, Emilia Pardo Bazan or Fernan Caballero The jexts have been modified and simplified a little. The author has served twice as a German "exchange" professor and writes for the information of German readers. Whatever bias he may have for the university which has entertained him does not lead him into encomiums that are undeserved.

His generalizations may seem too favorable at times and he may occasionally ascribe to President Eliot more than that gentleman would accept as his than that gentieman would accept as his due, but in the main it is a clear and intelligent description of the progress in education of America during the last forty years, and the share President Eliot has had in that is admitted on all sides.

By WILLIAM WINTER OLD FRIENDS

This book of wonderful interest constitutes the literary reminiscences of the writer, who is unquestionably the last important survivor of the richest period in our literature, for many years influential and distinguished in the field of prose letters, and to-day the representative living poet of America.

The book is rich in anecdote and illuminating personal letters. The paper on Aldrich has been declared by competent authority "the perfection of reminiscence." Mr. Winter knew Longfellow as no other person now living knew him; he loved him and was loved and trusted by him. The Longfellow chapter and the passages about Whitman attracted wide attention upon their serial publication.

Not only those named in the contents, but many other interesting figures in earlier American literature, are the figures that walk and talk and live again in the pages of this remarkable record of remarkable friendships. These reminiscences are among the noblest, most intimate and most instructive that have appeared from the pen of an American.

In the second signs appear of the weakening consequent on the demands of periodical literature. The simplified spelling theme is rather cheap, but Flannery is still himself. Of the last sketch the least said the better. Mr. Butler at any rate is funnier than most of his comic rivals.

That the author of "The Diary of a District Messenger" (Life Publishing Company, New York) should be irritated at the whole class that he attacks may not be unnatural. He seems to mistake abuse for humor, however. He gives little attention to the usual faults of messenger boys and represents his typical hero as a blackmailer, a grafter and a thief. That, we fancy, is a little too much even for those who have legitimate grievances

Here is a book that will live through the generations. WITHOUT PRINCIPLE?

The thrilling and dramatic story of a criminal who, after conquering the prejudices of our modern society, was called upon to rule it In a wonderful series of word pictures the resider is carried from the slums to the aristocratic homes and gambling resorts of the American metropolis; then to the heart of London's great financial centre, and through the intricate mazes of English company promotion; then back to America, and across the continent to the humanizing, inspiring atmosphere of the great and virgin West. And through it all, directed by a merciless, but master hand, one runs the entire gamut of human emotions; of all the controlling passions of mankind as found in society of the present day. It is a book that will set the blood on fire; that will impress a moral on the mind of every one

stirring in every chapter, it carries, by the force of its climax, the reader to the crest of billows. It possesses interest for the man of sedate mind and the girl who has romantic fancies. Now, only a few weeks old, this great anonymous novel enters upon its second month as the best selling novel here. As you know, it was greeted with a flood-a great volume-of Ehthusiastic praise-vaster, indeed, than ever has been accorded any other anonymous story in so short a space. The Acclaim has been spontaneous—the Success emphatic and quick.

Why? Because, as one critic says, "no greater novel has been published for many years in the United States," while another believes that "this year of literary grace has seen the rising of a new fictional star of the first magnitude." The Triumph has now become country-wide.

The Lady In the White Veil By Rose O'Neill

This sprightly American novel has all the dash of a detective story. The hero is seized with a longing to have a look at the empty family house, and is astonished to see coming out of it a young woman in a white veil. She asks him to call a cab, and he enters with her. From this point on the story never rests. The author herself has made the

Says the Boston Transcript: "The story not only is interesting as a romance, but is informing as an exposition of the development of thecentury." In "The Hand-Made Gentleman" is the blend of humor and pathos that makes for distinction.
